Overall CGPA Calculation

Overall CGPA :
Overall CGPA refers to the weighted average of the scores earned by a student across all Modules in a program. It represents a student's overall academic performance and is calculated as:

$$\text{Overall CGPA} = \frac{\text{Weighted Score of (Module 1 + Module 2 + Module 3)}}{3}$$

Note:

- The scores mentioned are not subject to regrading.
- To pass a module, you must achieve a score higher than 30%.
- Students must score an overall CGPA of 7 or above and should've participated in the Module 3 - End Module Offline Exam (Abroad Students exempted) to be eligible for placement opportunities.
